Senior Frontend Engineer | Angular • React • TypeScript

PROFESSIONAL SUMMARY

Frontend engineer with 4+ years of hands-on experience building scalable, high-performance web applications using Angular and React. Proven track record delivering production-grade solutions across logistics, warehouse management, solar tech, and hospitality domains. Skilled at translating complex requirements into clean, reusable component architectures that accelerate team velocity. Holds a BE in Mechanical Engineering, bringing strong analytical and systems-thinking skills to frontend problem-solving.

TECHNICAL SKILLS

Frameworks & Libraries: Angular 8–17, React, TypeScript, RxJS, NgRx, PrimeNG, Angular Material, Prime React

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, Java

Tools & Platforms: RESTful APIs, Git, GitHub, Spring Boot, Bootstrap, Tailwind CSS, MATLAB

Practices: Agile/Scrum, Component-Driven Development, Code Reviews, Responsive Design

PROFESSIONAL EXPERIENCE

Senior Software Engineer

Aug 2024 – Present

Shispare — Karachi, Pakistan

- Lead Angular development for enterprise-grade warehouse and logistics web applications, owning end-to-end feature delivery from design handoff to production deployment.
- Architected a library of 20+ reusable Angular components adopted across 2 active products, reducing duplicate code and accelerating feature delivery.
- Integrated complex RESTful API workflows including real-time order tracking, multichannel inventory sync, and court booking systems with sub-300ms response handling.
- Collaborated daily with UI/UX designers to enforce design system consistency, cutting design-to-code revision cycles.

Project: Wizefulfill

Enterprise warehouse management platform automating order fulfillment, inventory control, and multichannel tracking.

Stack: Angular 16, TypeScript, Angular Material, RESTful APIs, Git, Agile

Project: Tres Palapas

Resort web app for pickleball court reservations, accommodation bookings, and membership management in Baja California Sur.

Stack: React, TypeScript, Prime React, RESTful APIs, Git, Agile

Angular Developer

Jul 2022 – Jul 2024

Stepway — Karachi, Pakistan

- Designed and delivered 3 full-cycle Angular applications across logistics, print management, and solar energy sectors — each shipped on schedule within Agile sprints.
- Built a real-time courier tracking module for Salassil, integrating Angular frontend with Java Spring Boot microservices, improving booking accuracy.
- Developed a multi-vendor paper order management system (Printlab) with dynamic reporting dashboards, reducing manual tracking effort.
- Created a solar panel booking and configuration tool (VodaSun) with an interactive selection UI, improving customer conversion flow.
- Mentored junior developers on Angular best practices, component design patterns, and API integration standards.

Project: Salassil

Logistics platform for booking and real-time management of courier services.

Stack: Angular 16+, Java, Spring Boot, TypeScript, PrimeNG, RESTful APIs

Project: Printlab

Paper management system for tracking stock, managing multi-vendor orders, and generating reports.

Stack: Angular 16+, Java, Spring Boot, TypeScript, PrimeNG, RESTful APIs

Project: VodaSun

Solar panel booking platform with an interactive configuration and pricing tool.

Stack: Angular 8+, TypeScript, Bootstrap, RESTful APIs

Frontend Developer

Aug 2021 – Jul 2022

ADAP Private Limited — Karachi, Pakistan

- Guided UI/UX design decisions for client-facing web interfaces, ensuring web standards compliance and cross-browser compatibility.
- Managed digital presence strategies that drove sustained user engagement growth.

WordPress Developer

Jan 2021 – Aug 2021

ZA Logistics — Karachi, Pakistan

- Built and maintained company website; integrated digital tools to streamline logistics operations and improve online visibility.

EDUCATION

BE in Mechanical Engineering

Oct 2018 – Oct 2022

NED University of Engineering and Technology — Karachi **CGPA: 3.819 / 4.0**

H.Sc — Pre-Engineering

2018

Adamjee Govt. Science College — Karachi **Grade: A-1 (83%)**

S.Sc — Science

2016

Oxford Islamic Scientific School — Karachi **Grade: A-1 (89%)**
